**Dear little thinkers, try to answer these questions by yourself:**

- 1) Do you have phobia for anything?
- 2) Why do you feel fear? And when?
- 3) Why do some people do dangerous activities or jobs?

**First, let's read this interview then try to answer the following questions**

**Journalist: Why do some people do dangerous activities and jobs?**

**Dr Fred: It is because there are two elements in danger: one is fear , the other is the need to defeat fear. When they defeat fear, people feel a physical reaction.**

**Journalist: So, do we always need to do dangerous activities to get this feeling?**

Dr Fred: Not at all! Take a journalist, a football player or even an artist. They probably do not have to take physical risks. But the artist, the rock climber or the mountain biker feel the same physical enjoyment as a footballer after scoring a goal.

Journalist: What about people who work in dangerous professions?

Dr Fred: Well, policemen, firemen or even stuntmen share a certain type of personality with artists and sportsmen who practice dangerous sports. But they perform dangerous activities because these are part of their job.

- Form agents/ doer from the verb

Dear little thinkers, try to answer these questions by yourself:

- 1) What do you call the one who teaches you?
- 2) What do call the one who treat sick people?

First, let's study the following rule:

## Rule:

We add **-er** suffix to all verbs to form the noun for the "doer" of the action.

To fish is the exception as the person who fishes is a "fisherman", not a "fisher".
