Introduction

About Jordan Team Together

Learn Together! Succeed Together! *Team Together!*

Jordan Team Together is a fast-paced, 7-level primary English course that develops language alongside future-ready skills. Pupils are challenged to communicate creatively in authentic contexts, think critically and work together to get results. *Jordan Team Together* sets out a clear path for progress and prepares children for success.

Jordan Team Together takes pupils from level Pre A1 to B1 of the Common European Framework of Reference for Languages (CEFR).

For pupils

Throughout their Primary education pupils are in a transitional period between childhood and their teens and are still developing intellectually and emotionally. *Jordan Team Together* follows children's developmental stages by offering content that is adapted to their cognitive needs in each level through a careful choice of the main characters, the topics, the language content and the way in which it is presented.

Jordan Team Together has been designed to create an enjoyable and engaging environment for effective learning. A full colour Pupil's Book and an Activity Book are complemented with a wide range of multimedia and digital tools, which are certain to captivate pupils' attention.

For teachers

Jordan Team Together has been created using tried and tested methodology for effective language teaching. A variety of language presentation contexts will help keep pupils engaged and motivated.

A complete assessment package will help your pupils get results.

Jordan Team Together has also been created with busy teachers in mind. At-a-glance organisation of materials within the Teacher's Book will help you find all the necessary information such as answer keys and audioscripts, but it will also give you ideas on how to extend Pupil's Book activities and adapt them to your pupils' level.

Course features

Vocabulary

Each unit starts with an eye-catching visual presentation of the target vocabulary, which gets pupils' attention right from the start. The visual presentation serves a variety of purposes:

- to present new vocabulary in context
- to revise previously learnt vocabulary (*Stopwatch* feature )
- to offer speaking practice for everyday communication purposes
- to set the scene for the story in the next lesson.

It is followed by engaging step-by-step practice, including a cut-out activity.

The *Think!*  feature at the start of the unit allows for quick revision of the lexical items that pupils are very likely to know from previous learning, which is a great confidence-booster.

The *Communicate*  activities effectively help pupils start using English in meaningful contexts from the very beginning.

Each Pupil's Book lesson has a corresponding Activity Book lesson allowing for a lot of additional vocabulary practice. Content from the main lessons is complemented by *Extra practice* sections at the end of each unit which can be done in class or at home, depending on teacher requirements.

In addition, there is a Picture Dictionary at the end of the Activity Book which can also be used to consolidate the vocabulary of each unit.

Grammar

Grammar structures are taught in a clear, scaffolded, step-by-step approach in every unit. The term 'scaffolding' means that each element of new language carefully builds on what has been previously taught. It is also carefully presented so that no additional language or vocabulary items are taught at the same time.

The new structures presentation is contextualised through the chant, the song and the story. The term 'contextualising' means that all language is always presented in a natural way.

Grammar boxes on the Pupil's Book page contain clear, pupil-friendly examples of the target structures and provide a reference point for pupils as they learn and practise. The structures presented in the Grammar boxes are also recorded and serve as a model for the correct pronunciation. Further consolidation practice is available in the Activity Book, both in the corresponding lesson activities as well as in the *Extra practice* section at the end of each unit.

Stories

Jordan Team Together Grade 3 stories feature a group of inquiry-minded children, who are keen on Science and learning new things. They are also eager to help their families and the wider community.

Polly, the eldest of the children, is a self-made scientist and a discoverer who leads her new friends Laila, Sami and Tom on their adventures. Always accompanied by Bo the robot and Atomic the cat, the children find out where food comes from, what to do to keep fit, how to take care of animals and much more.

Each story has been built around a specific concept from Science and Social Studies curricula. To explore this concept further, please see the teaching notes for Lesson 3 in each unit.

Skills

In *Jordan Team Together* Grade 3 the main focus is put on the listening and speaking skills, but pupils also practise reading and writing skills towards the end of each unit, further supported with the content of the Activity Book.

The speaking skill is practised through a variety of contexts:

- Lessons 1 and 5 end with a *Communicate*  activity where pupils can put the newly acquired content into practice and personalise it.
- Lesson 7 contains a cut-out activity which provides a fun and motivating way to get pupils to speak in a less controlled manner.
- Lesson 9, *English in action*, is dedicated to teaching functional language, which is key to successful social interaction. Exposing pupils to this language right from the start ensures that they not only acquire knowledge of grammar and vocabulary but also learn what to say and how to behave when playing with others.

Culture

Learning a foreign language includes exposure to vocabulary and grammar, but it isn't complete without information about the culture of other countries.

The *Culture* sections in *Jordan Team Together* are designed in such a way as to bring that information closer to pupils in a friendly manner.

Learning Club: Language Booster and CLIL

After every four units of the Pupil's Book, there is a Learning Club section. This consists of a Language Booster Lesson and a CLIL lesson.

The Language Booster lesson consolidates and extends language and topics taught in the four preceding units.

CLIL and STEAM provide a pathway to language, literacy and employability in later life, and prepare pupils for the world of work by enabling pupils to see English in context through a real-world lens.

Each of the CLIL lessons in the Learning Club sections of *Jordan Team Together* Grade 3 also includes a focus on STEAM subjects. While studying a variety of topics including Mathematics, Social Studies and Engineering, pupils also have to employ 21st-century skills like creativity and critical-thinking. As part of the lessons, they make practical yet fun models which help to reinforce the learning and bring the concepts to life.

In addition to this, each story in *Jordan Team Together* Grade 3 has been built around a key concept from common Social Studies or Science curricula. To explore this concept further, please see the teaching notes for Lesson 3 in each unit.

21st century skills

One of the features of *Jordan Team Together* is the focus on 21st century skills, which are a must for today's learners to allow them to thrive and succeed in the modern world. Pupils need to learn more than just vocabulary and grammar; they need to learn critical thinking and problem-solving, creativity, communication and collaboration. Many of the activities in *Jordan Team Together* serve both purposes – as pupils put new knowledge into practice, they also work on the development of the 21st century skills. These activities are easily identifiable with the following icons:

- | | |
|---|---|
|  Critical thinking |  Communication |
|  Problem-solving |  Collaboration |

Other 21st century skills covered in *Jordan Team Together* include:

Social and cultural awareness: Lesson 8 of each unit enables pupils to learn about other countries, and through a project, reflect on how their own country is similar or different.

Curiosity and Initiative: In the project work, pupils are encouraged to find information, make decisions and present their opinions.

Assessment for learning: see page 12 for more information.

Literacy, Numeracy, Scientific Literacy: These are covered through a wide range of topics covered in the series as well as through work on specific areas such as development of the reading and writing skills.

ICT Literacy: In the project work, pupils are encouraged to use a variety of materials and sources, which include web searches and work with modern technologies.

Support for mixed-ability classes

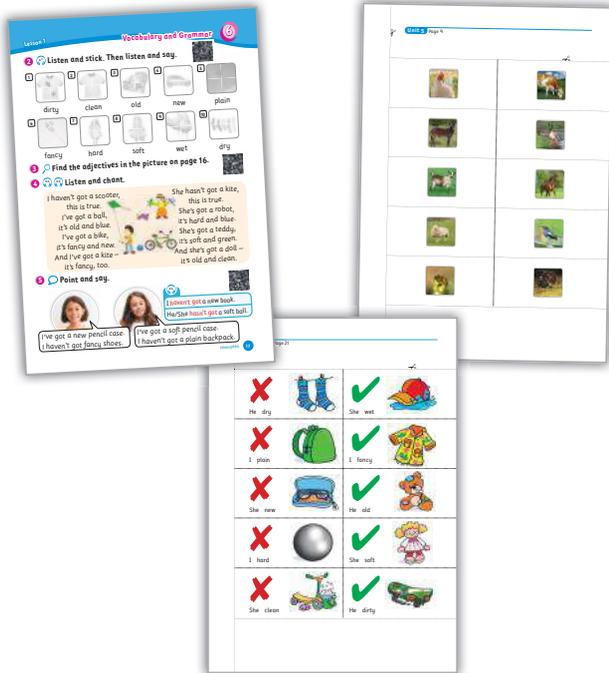

Jordan Team Together supports teachers who work with mixed-ability classes in a number of ways. The Teacher's Book includes teaching tips for mixed-ability classes, labelled **Diversity: Support/Challenge** and **Extra activity: Fast finishers**.

Class Audio

The Class Audio MP3s contain all the recordings for the Pupil's Book and Activity Book. They also contain karaoke versions of songs and chants, immediately after each main song or chant. In order to facilitate using the audio materials, all recordings are appropriately numbered on the pages of the Pupil's Book and the Activity Book. All audio for the series can be found online.

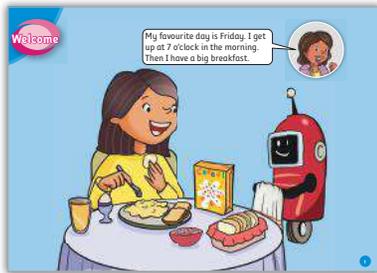

Flashcards and Word Cards

The Flashcards and Word Cards present vocabulary from each unit. They help pupils learn, remember, practise and revise vocabulary. Ideas for their use can be found in the Teacher's Book lesson notes and in the Games Bank, which contains extra games and activities.

Story Cards

The Story Cards are large, frame-by-frame versions of the cartoon stories in lesson 3 of each unit of the Pupil's Book. On the back of each card there is a transcription of the appropriate part of the story recording and questions to be asked before and after listening. More information on how to use the Story Cards during classes is available on page 17 of the Teacher's Book.

Tests

Upon completion of each unit of the Pupil's Book, the teacher is able to check the progress pupils are making by using a test. There are four Unit tests and one End-of-semester test. All these tests are available in two versions: Standard (A) and Challenge (B) so as to allow teachers more flexibility with mixed-ability classes.

The tests and audio are available online.

Photocopiable resources

The Photocopiable resources contains consolidation and extension worksheets for further practice of vocabulary, grammar, CLIL, English in action, communication games, stories and songs. They are all available online.

Listening activities and videos have QR codes to launch the relevant activity from the main components.

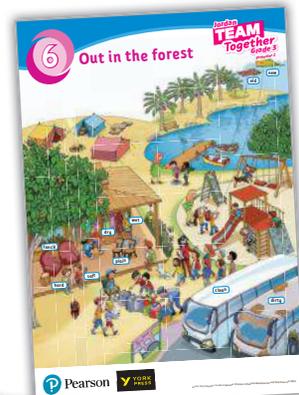

Posters

The Posters designed for *Jordan Team Together* are a great visual aid for presenting or consolidating vocabulary.

The level-specific posters are created from the unit opener illustrations, and provide a lot of opportunities for revision and speaking practice.

The Classroom posters contain 4 posters that can be used with any level of the course. The pack is comprised of the Alphabet, Numbers, Classroom language and Months and seasons.

Monitoring progress and exam readiness with *Jordan Team Together*

Jordan Team Together can be used for all general English courses. *Jordan Team Together* provides teachers and institutions with the GSE tools that enable them to demonstrate visibility of pupil progress step by step, and a way of identifying and addressing learner needs and supporting the achievement of goals.

Jordan Team Together is additionally aligned to English Benchmark which can provide an independent measure of learner proficiency and formative information to support planning and next steps.

The table below indicates the correlation between the course and various international frameworks and tests.

	GSE	CEFR	PTE YL	English Benchmark
Starter	10–22	Pre A1		
Level 1	17–29	Pre A1/A1	Firstwords	Level 1
Level 2	20–32	A1	Springboard	Level 2
Level 3	24–39	A1/A2	Quickmarch	Level 3
Level 4	30–43	A2/A2+	Quickmarch/ Breakthrough	Level 3/4
Level 5	33–46	A2/B1	Breakthrough	Level 5
Level 6	36–50	A2+/B1		

The Global Scale of English

The Global Scale of English (GSE) is a standardised, granular scale which measures English language proficiency. Unlike some other frameworks which describe attainment in broad bands, the Global Scale of English identifies what a learner can do at each point on the scale across speaking, listening, reading and writing skills.

The scale is designed to motivate learners by giving a more granular insight into their progress. Teachers can use the Global Scale of English to match a pupil to the right course materials for their exact level and learning goals.

The badging above and on the back of your book shows the range of objectives that are covered within the content. Knowing this range helps you select course materials with the right level of support and challenge for your pupils to help them progress. It does not mean that pupils need to have mastered all the objectives below the range before starting the course, or that they will all be 'at' the top of the range by the end.

For more information about how using the GSE can support your planning and teaching, the assessment of your learners, and in selecting or creating additional materials to supplement your core programme, please go to www.english.com/gse.

What is English Benchmark?

English Benchmark is a motivating English test for young learners aged 6–13, which proves pupils' English abilities to parents, monitors learning progress and ensures teaching targets the right skills.

English Benchmark measures pupils' speaking, listening, reading and writing skills through fun and interactive tablet-based activities, with immediate detailed reports for teachers and parents that include pupils' strengths, suggestions for improvement and recommended activities to improve their skills.

English Benchmark and *Jordan Team Together* make the perfect partners for your language and learning assessment. As your pupils learn with *Jordan Team Together*, you can use the English Benchmark tests to measure their progress. After pupils have taken their test, you will see recommendations of which lessons to teach next in order to focus on the areas that need improvement.

In order to show progress, learners should take the test at least once at the start and once at the end of the year. If possible, teachers could ask learners to take the test again half way through the year or at the end of each semester to check they are on track.

Formative assessment / Assessment for learning

Assessment and evaluation are frequently used as interchangeable terms. However, assessment is focused on pupil learning, whereas evaluation is focused on learning programmes and any or all their components (objectives, syllabus, teaching and assessment methods, materials, etc.).

In the classroom, what clearly differentiates these two terms is the use made of the information and data obtained from assessment or from evaluation. If you use it to improve the teaching and learning process you are developing formative assessment, or assessment for learning. If you use it to grade or measure the quality of the learning, you are developing summative assessment. This means that the same assessment tools can be summative or formative depending on the type of information they provide and the use that is made of it.

Formative assessment, or assessment for learning, is “the process of seeking and interpreting evidence for use by learners and their teachers, to identify where the learners are in their learning, where they need to go and how best to get there” (Assessment Reform Group, 2008). This process requires alternative assessment tools likely to be shared by teachers and pupils which are used as an ongoing process, which are flexible and adapted to the individual needs of pupils and which guarantee that all the pupils engage in the learning process.

Here are some suggestions on how to use these types of tools to implement assessment for learning in your classroom.

Main strategies of formative assessment

The main stages of the formative assessment process are:

- 1 Setting the aims and criteria for success
- 2 Monitoring pupils' learning, including giving constructive feedback
- 3 Peer learning
- 4 Independent learning/long-term assessment

Setting aims and criteria

If you want your pupils to be successful in the learning process, you need to tell them what it is that they are going to learn and what you expect of them in terms of performance. At the beginning of each lesson, the teacher should tell the pupils what they are going to learn. This can be done by using key questions which are meant to inspire pupils' curiosity, interest and engagement.

Monitoring pupils' learning

This stage of assessment is used to achieve the following goals:

- to adjust ongoing teaching and learning
- to increase the level of interaction and provide for feedback loops during questioning
- to improve pupil achievement of intended outcomes.

Tools that can be used for monitoring pupils' learning are:

- **Lollipop stick technique** or **Random selection tool**. Use sticks or cards that pupils can personalise with their names at the beginning of the school year. Pick them randomly to call on pupils for questions thus ensuring that all pupils have an active role and will produce a similar amount of language, because pupil talking time (PTT) matters!
- **Mini-whiteboards**. Use them for short answers or to practise prepositions, vocabulary, comprehension, spelling, gap fills, grammar – any time you want to check understanding. Pupils write their answers individually and hold up the whiteboards and you get feedback from all your pupils at the same time!

- **Happy/sad face technique**. (also Yes/No, Stop/Go, True/False). Use this for critical thinking development and *yes/no* answers. Make a set of cards with a happy face on one side, and a sad face on the other – one for each pupil – or pupils can make their own. After practising a skill, ask pupils *how they feel they are doing*. Alternatively, pupils can show this on a scale from 1-5 using the fingers on their hands for a deeper understanding of the *yes* and *no* answers.
- **Traffic light cards**. Use them to check that pupils know what to do on a given task. Pupils show you green/yellow/red card, depending on their level of confidence.
- **Exit slips**. Use them to evaluate your lessons at the end of the day or session, to get feedback from the lesson, or to offer pupils the opportunity to give opinions. Exit slips can simply be post-it notes stuck on the door on their way out of class.

Other types of assessment tools you can use during instruction are those oriented towards helping you actively observe the different skills and competences that your pupils are developing while they are working in class.

- **Checklists**. These are very useful to assess different tasks or different stages of the same task at the same time. Taking note of your pupils' performance on the spot will provide you with objective evidence of their true level of competence.
- **Observation forms**. The teacher collects data on pupils' work by filling in observation forms or reading written assignments to adjust teaching procedures where necessary.
- **Video/audio recordings**. These are excellent tools to observe your pupils from a different perspective and analyse their strengths and weaknesses, behaviour and classroom relationships in depth. [Be aware that you may need parental permission to record children.]

Peer learning

Working together in pairs or groups gives pupils an opportunity to share knowledge and also learn from their classmates.

Tools that can be used for peer work and peer learning are:

- **Think-pair-share**. Pupils work on their own, then they discuss their ideas in pairs and finally they present their ideas to a group or the whole class.
- **Two stars and a wish**. Pupils say two positive things about the work of their partner and suggest one area for improvement.
- **Expert envoy**. This is a tool to use with mixed-ability classes. If you have pupils who are strong in some areas, you may choose them to be the 'experts' for their class or group and ask them to help their classmates.
- **Three facts and a fib**. Pupils write three true statements and one false statement about the topic of a lesson and share them with other pupils/pairs/groups to see if they can identify the false information. This technique can also be used in a summative evaluation at the end of a longer learning process, e.g. a unit.

Checklists and video recordings can also be used as peer learning tools.

Independent learning and long-term formative assessment

Long-term formative assessment tools are used to improve the following areas of your assessment practice:

- for the pupils to develop critical thinking skills about their own performance
- to promote collaboration
- to improve pupil achievement of intended instructional outcomes.

Performance-based teaching and learning impacts strongly on the way we carry out assessment by helping pupils become autonomous and independent learners aware of the process by which they learn as well as their learning goals.

Some of the long-term assessment tools you can use in your classes are:

- **Summative and thought-provoking questions.** At the end of a lesson or a unit, pupils are asked to reflect on their learning process and to try to self-assess their performance by answering the following questions: *What have I learnt? What do I need to work on? I can ... I'm (not) good at ...*
- **Portfolios.** Pupils are given the responsibility of selecting which pieces of work they produce should be placed in their portfolios to demonstrate how they are improving.
- **Checklists.** These are used to assess pupils' completion of a task. They are not rating scales and they only include *Yes/No* or *✓/✗* descriptors.
- **Projects.** Pupils present what they know through pictures and texts such as essays, research reports, or long-term projects.
- **Pupil Travel journals/Learning diaries.** Pupils create their own books in which they chart the journey of their learning.
- **Rubrics.** They can be used when evaluating pupil performance or work resulting from a performance task. For further details see below.

It is very important to remember that before this type of assessment is implemented in the classroom, a supportive classroom environment is created and pupils are given guidance on how to reflect upon and evaluate their own performance as well as that of their peers.

Using rubrics for assessment in CLIL

Rubrics can be very useful tools to help CLIL teachers fulfil the requirements of assessment practice in bilingual contexts. There are many reasons to use them, but these are the most important ones:

- firstly, because they suit the CLIL dual approach (content learning and language development);
- secondly, because they allow for performance-based assessment to provide qualitative feedback connected to the assessment criteria;
- thirdly, because they tell teachers, pupils and parents in advance what needs to be done to successfully perform the task;
- finally, because they give teachers and pupils a sense of direction and a context to share the learning goals from the beginning of the teaching and learning process.

Language should not be an invisible component in the bilingual classroom. Teachers in bilingual schools should be aware of the language proficiency of their pupils and systematically conduct language demands analyses of the content to provide appropriate scaffolding. Since not all pupils in the same class have the same language proficiency, effective assessment in CLIL should measure pupils' progress in the foreign language at different levels and along distinct learning paths. Rubrics are a tool that can help teachers achieve this goal of effective assessment of content, language and process in an integrated way.

Rubrics are scoring guides, which include several assessment criteria to evaluate pupil performance or work resulting from a performance task. In this sense, they are different from checklists because they are rating scales, which means that they not only contain a list of items to be checked but they also include a range of marks to assess how well each item has been performed. These rating scales can be holistic or analytic.

Holistic rubrics

All criteria are evaluated simultaneously at a unidimensional level because each level of the rubric (1, 2, 3) includes all the descriptors for the different criteria assessed (for content, language and delivery).

Holistic Rubric

Oral Presentations	The three descriptors are assessed at the same time.
Accomplished (Level 1): content, language and delivery	Stays on topic all the time and speaks clearly. Body language is appropriate.
Developing (Level 2): content, language and delivery	Stays on topic most of the time and speaks clearly but mispronounces some words. Body language is appropriate most of the time.
Beginning (Level 3): content, language and delivery	It was hard to tell what the topic was. Often mumbles or cannot be understood. Body language is not appropriate most of the time.

Holistic rubrics provide an overall evaluation of quality, proficiency and understanding, thus the feedback is limited because the descriptors are not analysed in detail. This means that errors are tolerated, and no correct answer is expected. Also, the scoring process is faster.

Analytic rubrics

Each criterion is evaluated separately at a multidimensional level because each criterion of the rubric (to assess content, language and delivery) includes several descriptors at different levels of performance of the task.

Analytic rubric

Oral presentations Criteria/performance	Beginning (Level 3)	Developing (Level 2)	Accomplished (Level 1)
Content	Does not seem to understand the topic very well. It was hard to tell what the topic was.	Shows a good understanding of parts of the topic. Stays on topic some (50–89%) of the time.	Shows a full understanding of the topic. Stays on topic all (90–100%) of the time.
Language	Often mumbles or cannot be understood OR mispronounces more than five words.	Speaks clearly and distinctly most (75–94%) of the time. Mispronounces no more than five words.	Speaks clearly and distinctly all (95–100%) of the time and mispronounces no words.
Delivery	Slouches and/or does not look at people during the presentation.	Sometimes stands up straight and establishes eye contact.	Stands up straight, looks relaxed and confident. Establishes eye contact with everyone in the room during the presentation.

Analytic rubrics provide detailed information from the defined performance levels. This means that a significant degree of feedback is provided. However, the scoring process is slower.

The use of each type of rubric will depend on the nature of the task and other factors such as the time available, the need for substantial feedback, the number of pupils, different language/competence levels in the group and the assessment goal: holistic rubrics should be used for overall scores and analytic ones when detailed feedback on each criterion is desired.

For your rubrics to be valid, reliable and fair, there must be a coherent connection between the learning goals and the task, the learning goals and the assessment criteria, and the descriptors with each assessment criterion.

Steps to make a rubric

Here are some steps to be followed when making rubrics to assess pupils in CLIL classrooms.

- First, begin by designing an authentic task likely to help pupils 1) learn the curricular content, 2) develop the necessary language to learn about that content, and 3) achieve the given learning goals and key competences at the pupils' level. e.g. Create a questionnaire for Months and Seasons.
- Next, define the criteria to assess pupil learning from this task. These assessment criteria will be the reference points to describe the acceptable level of performance of the task, e.g.
 - pupils know about the festival (their level of comprehension of the subject);
 - pupils are able to write questions about the festival (type of questions; tenses; number; etc.);
 - pupils are able to work in groups to create a questionnaire (contributions; quality of work; time management; attitude; etc.)
- Use the CEFR charts or the Global Scale of English (english.com/GSE) to measure learner progress on the language proficiency scale and get your assessment criteria for language from their available descriptors. Using these scales as a reference is useful for understanding your pupils' levels of proficiency more precisely, to monitor pupils' progress in a more accurate way and to make more informed choices in selecting materials or assessments, e.g. Speaking: Can ask someone simple questions about their life and experiences, GSE 37/A2(+); Can summarise the key information in basic diagrams, e.g. bar charts, timelines, GSE 54/B1(+).
- Then use a cognitive taxonomy to identify the cognitive domain and skill that your tasks involve, e.g. "interpret the information collected from the questionnaires" involves applying knowledge. Then write differentiating descriptors as you move on the scale from lower order thinking skills (LOTs) to higher order thinking skills (HOTs), e.g. the information is used to create a graph but not clearly displayed; the information is used and displayed in a graph but there are some mistakes in the interpretation of data; the information is clearly displayed and interpreted.
- Once you have defined the assessment criteria and identified possible descriptors of performance, you can:
 - make a holistic rubric, then write descriptors incorporating all criteria in each descriptor.
 - create an analytic rubric, then write descriptors for each individual criterion.
- Check that the criteria and descriptors you have included in your rubric assess pupils' content, process and language learning at the right level.
- Finally, adapt the format of the rubric to the age and language proficiency of your pupils and plan carefully the structure of the rubric. You may wish to leave space at the bottom of the rubric to write comments, add signatures, stickers, parental feedback, etc.

After having used teacher-made rubrics for some time, pupils may feel ready to have an active role in this process and create their own rubrics and checklists as guidelines for goal setting. Train your pupils to do it and they will develop a very important key competence: learning to learn.

How to work with projects

by Magdalena Custodio Espinar

One of the key factors affecting children's ability to learn cooperation and collaboration is the type of situations they face. In other words, pupils will not learn how to be a reliable team player if they aren't exposed to tasks that require team work. There are many ways to organise pupil interaction in class and the most popular ones are collaborative and cooperative work. These two interaction systems may seem interchangeable but there are some clear differences between them:

Collaborative work

- Group goal
- Learning takes place in a group
- The final product is co-constructed
- Roles/responsibilities are flexible and agreed
- The process is important

Cooperative work

- Individual goals within the group
- Learning is an individual process
- The final product consists of individual contributions
- Roles and responsibilities are usually pre-defined
- The final product is important

When working on projects, collaborative work is the preferred system, giving pupils an opportunity to share ideas, verbalise opinions and interact with other classmates. Thanks to this, a real communicative context is developed in the classroom during which pupils must listen to each other and reach an agreement to create a common product.

To apply successful project work in the classroom you should:

- Keep a flexible project schedule and involve pupils in project design when possible. Promote parent involvement.
- Prepare pupils by having them thinking about the project in advance. A rubric can be very useful to show them what they are aiming for and trying to accomplish. Use negotiation strategies to help them understand the rationale for this type of work.
- Establish moments for feedback and specific products at the end of each work session to promote a sense of mission, e.g. record evidence of progress using field notes or observation templates. Keep records public so pupils have ownership of them by using rubrics or checklists.
- Avoid making decisions for pupils. It will take time for pupils to be able to develop time management skills and learning to learn competence. Promote this by providing them with support during the project, e.g. a timeline with the work sessions; worksheets with instructions or steps to follow; a project goals checklist to tick; a webquest to develop critical thinking skills, etc.
- Assess the quality of projects by using professional work as a reference. Boost the quality of your pupils' work by showing them good examples of other pupils' work. Develop scaffolding to help pupils reach the standards and include both individual and group grades.
- Promote full participation by using a checklist for active observation of pupils that will give you objective evidence of their performance. Set realistic alternatives and consequences for non-participation such as suggesting individual ways of working on the project, negative individual grades, etc.
- Foster reflection strategies both for the process and for the final product from a critical point of view to improve future performance. When deciding on how to group your pupils, you should consider your rationale so as to group pupils according to the right criterion. Here are some ideas to arrange your class for group and project work.

Grouping for leadership. If you have passive pupils who need someone monitoring and taking control of their active contribution in group work, pre-assign groups and make sure these pupils share groups with class leaders (those pupils who are more skilled or have more knowledge).

Random selection groups. If the task does not require specific pupils to be separate or together you can simply put the groups in alphabetical order, take their names from a bag or hat, use a pack of cards (group them based on having black or red cards, cards in a specific order, the same numbers ...) or word-family cards, synonym word cards, date of birth, etc.

Then, you can rotate some members to create new groups. Turn and talk (front row/back row) for a quick group task is also a possibility.

If you are familiar with your pupils' interests, e.g. football teams, make cards with the names of the most popular players and use them to make the 'football teams'. You can do this with popular films, TV series and cartoons of their interest.

Grouping by interest. Have your pupils complete a survey and group them based on their responses. You can also design the task according to different interests and give pupils the opportunity to join a group according to their personal interest or expectations of the task, e.g. in a presentation about their hometown, pupils interested in history can focus on historical buildings and pupils interested in sports can focus on stadiums and sports facilities.

Teaching and learning EFL or CLIL involves many different processes such as recording observations, presentation of ideas, argumentation, modelling constructions and explanations, arriving at conclusions, obtaining, evaluating and communicating information ... in English! This is a very rich and complex communicative context which requires both cognitive and language skills for learning to occur.

Pupils' engagement in the learning process can be increased significantly by analysing in advance the linguistic and cognitive demands of every task. This analysis will allow teachers to provide pupils with the necessary scaffolding to encourage them to actively participate in the lesson, regardless of the language level of that pupil.

Language scaffolding

In EFL and CLIL, language is used for learning and communicating. This means that it is necessary to scaffold the input (the language pupils receive), the intake (the information they process) and the output (the language they are able to produce after this information processing) to ensure an effective interaction. In order to make this process possible, the role of the teacher is very important and this process emphasises their guiding role in the classroom. This scaffolding is very important because the interaction promotes the necessary feedback to connect the input received and the output produced in a meaningful way by pupils. This is called interlanguage development and it is a key factor of content learning and language development.

To identify the necessary scaffolding for our pupils we can conduct a language demands analysis. It consists of identifying and describing in advance different types of language involved in CLIL lessons and performance-based tasks: language of learning, language for learning and language through learning (Coyle, Hood, Marsh, 2010).

Language of learning refers to the language connected with the content being learnt. Pupils will learn it to access new knowledge, e.g. learning about sound: high/low pitch, tone, volume, etc.

Language for learning is the language necessary to perform the communicative functions of the learning context. If pupils need to compare the waves of the sound in a graph, do they know the comparative and superlative form of adjectives? If not, scaffolding is required to complete this task.

Language through learning refers to language learnt due to cognitive and academic development. Each pupil will develop this type of language during the learning process in close relation to their individual cognitive development by interacting with the resources (personal, digital, etc.) and completing the tasks.

Analysing the linguistic demands of the content and the task will allow teachers to provide pupils with suitable scaffolding strategies likely to promote interaction and feedback in the classroom. In the previous example the teacher can provide oral scaffolding by displaying visual aids such as word cards for the language of learning and the comparative and superlative structure on a poster to help pupils interact (compare the waves of the sound).

In addition, a cognitive taxonomy provides a hierarchy of thinking skills organised from lower order thinking skills (LOTS, e.g. identify) to higher order thinking skills (HOTS, e.g. compare). Bloom's revised taxonomy comprises six cognitive domains involving cognitive skills such as remembering, understanding, applying, analysing, evaluating and creating. Using a taxonomy will allow teachers to adapt the degree of difficulty of the activities they plan from a cognitive point of view by identifying the cognitive domain and skill they demand. It will also help them develop a 'continuum of practice' of always going from LOTS to HOTS, thus starting at pupils' present cognitive level (because, for example, you cannot apply if you do not first understand and remember).

Differentiated learning

Using a taxonomy to prepare your lessons can help them be more effective and flexible and, therefore, more likely to be learnt by all the pupils. Here are some examples of strategies to cope with mixed-ability pupils in the classroom.

- **Low level pupils are a majority.** Since a taxonomy is a hierarchy of cognitive skills we must try to extend children's thinking skills from LOTS to HOTS by practising first at lower levels (remembering and understanding) and progressively moving towards higher levels (applying, analysing, evaluating and creating). Therefore, if the average level of the class is very low, we will have to take this into account and provide them with more activities from the lower levels at the beginning and gradually include some of higher levels.
- **High level pupils are a majority.** If the average of the class is very high, you should try to provide them with more activities from the higher levels in order to ensure a motivating and challenging context.
- **Heterogeneous pupils.** Prepare activities at lower levels (remembering and understanding) for some children and activities at higher levels to work and practise the same content at the same time. For example, list the main stages of metamorphosis (LOT); find out and describe the main stages of metamorphosis (HOT).
- **Fast finishers.** All pupils work first on the same set of activities, then pupils who finish earlier can design their own activities at a higher level. You can teach them to use the taxonomy for this purpose.
- **Gifted pupils with a special curricular adaptation.** Prepare compulsory activities for all the children at lower levels and voluntary activities for 'those who want to go further'. This strategy will provide more pupils with the opportunity to do the higher order activities and will allow the teacher to include different activities for the class and for the gifted pupil in an easy and unforced manner. For example, prepare a set of activities from different levels about the properties of light, then offer the possibility to investigate what a shadow is, when it can be seen, why it changes length, etc. You can give pupils a book or website, etc. for them to find out about it.

How to work with stories

Stage 1 – Before listening to the story

First, talk to pupils about the characters appearing in the story and about the places in which they appear. Ask pupils what they can see in the pictures and invite them to guess what will happen in the story. Remember to praise the children for all their ideas, but do not correct them and do not explain too much. (In a moment pupils will listen to the recording and check if they were right). At the beginning of the school year, you may wish to ask questions in L1, little by little switching to English. Focus more on what occurred in the story than on the language itself. First, pupils will understand the story as a whole, then they will remember the vocabulary used in the story. Questions for this stage can be found at the back of each story card.

Stage 2 – Listening to the story

All the stories have been recorded by professional actors. However, if for any reason it is not possible to play the recording or if the teacher wants to tell the story himself/herself, the complete text of the recording is provided on the back of each story card. At this stage, remember to encourage pupils to compare their previous ideas with what actually happened in the story. Play the recorded story and ask pupils to point to the appropriate pictures in the Pupil's Book.

Stage 3 – After listening to the story

After listening to the story together, ask pupils a few questions about it to make sure that they understood what happened. You may use the questions provided on the back of each story card or make up your own questions.

When answering, pupils additionally practise and consolidate the previously introduced language material. At this stage, it is best to speak English.

Stage 4 – Acting out

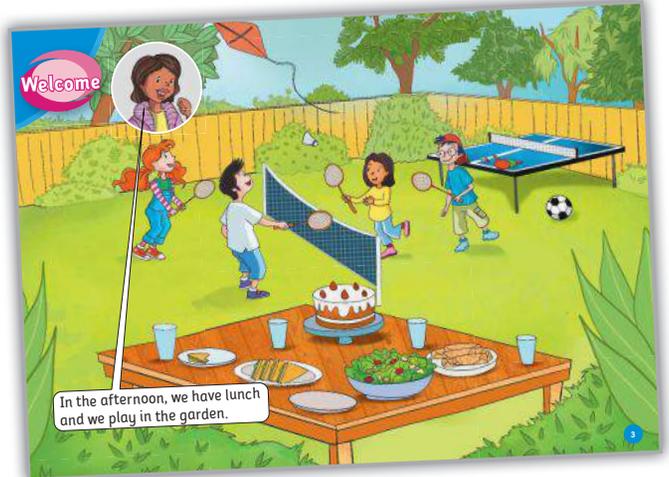

After having listened to the story a few times, your pupils should be ready to act it out. Pupils can contribute to the story, first by making particular gestures and then, depending on the difficulty of the text, by using simple phrases. You may also play particular parts of the recording and ask pupils to repeat them each time.

Next, you may divide pupils into groups and ask each of them to say the lines of one character. Under the teacher's supervision and on the basis of the pictures, pupils quote the lines of appropriate characters. To make this exercise more interesting, you can bring items to be used as props.

Suggested exercises

Exercises with story cards

- Cover the numbers on the cards. Shuffle the cards, stick them to the board and ask pupils to arrange them in the correct order.
- Cover the numbers on the cards. Stick the cards to the board in the correct order. Ask pupils to close their eyes, then take away one card. The pupils are supposed to identify the missing card.
- Cover the numbers on the cards. Hide the cards in various places in the classroom. Ask pupils to find them and stick them to the board in the correct order.
- Show pupils a story card and read the corresponding lines. When reading, make intentional mistakes, e.g. say *red* instead of *yellow*. Pupils correct your mistakes.
- Distribute the story cards among a few pupils. Play the story recording. When a pupil hears the lines referring to his/her card, he/she should stand up and show it to the class.

Exercises without story cards

- Ask pupils to draw a scene from the story they have heard.
- Ask pupils to invent another ending for the story they have heard.
- Pupils draw their favourite character.
- Talk to pupils about what the characters learnt.
- Ask the children about the way they would behave or feel if they were one of the characters.
- Read some lines from the story. Pupils should provide the name of the character who says the lines.

How to work with videos

How is the video material presented?

In *Jordan Team Together* Grade 3, there are videos which show pupils how to do the unit projects. They contain the target vocabulary and grammar of the unit. Videos are a great tool for conveying information to young learners. A combination of images, movement, colours, sounds, music and language fulfils its educational functions at all levels of understanding. Pupils may watch the same videos many times and each time their perception of the material they watch is enhanced.

When can the videos be used in class?

- The Project videos can be used as part of the presentation stage for the activity in Lesson 8.
- You can also use the Project videos to revise the material. Children have got good short-term memory, but watching the same episodes again two months after new material was introduced will considerably stimulate their memorising ability.

How should the videos be used?

- Watch the video with pupils from the beginning to the end.
- Watch the video again, stopping the recording after each scene so that you can ask pupils questions about the things they see.

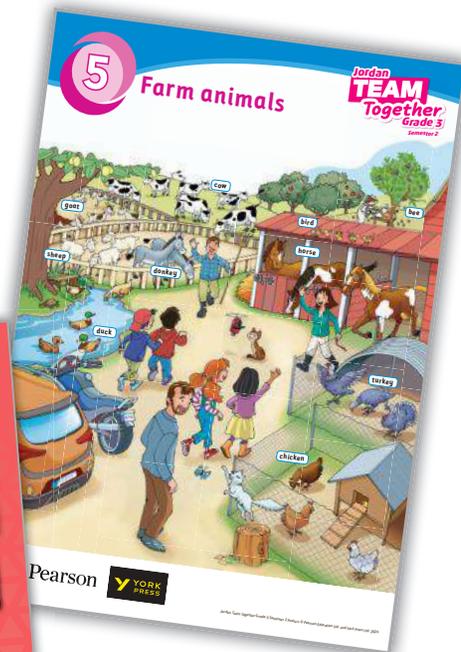

How to work with posters

Posters can be a powerful and engaging tool for presenting or consolidating the language covered in the Pupil's Book.

In *Jordan Team Together* Grade 3, there are 4 full-colour vocabulary posters featuring the main characters of this level. Each poster can be used for presentation or revision of the first set of vocabulary from each unit.

The generic **Classroom posters** can be used with any level of the course.

The pack is comprised of the Alphabet, Numbers, Classroom language, Months and seasons and Common irregular verbs posters.

Techniques of working with posters

Stick the poster to the wall in a visible place. In this way it will remind pupils of the material they have covered.

Predicting

In order to create the atmosphere of anticipation and to invoke curiosity in children, before you show the pupils a poster, give them its title. Tell pupils that in a moment they will see a poster with e.g. toys. Ask pupils to think about the vocabulary which may be presented in the poster. Encourage pupils to provide examples of particular words related to this thematic group. In the case of toys it will be: *a teddy, a doll, a ball, a kite*, etc. Then, stick the poster to the wall and check together how many words the pupils predicted correctly.

Asking questions

Point to the objects, persons, colours, etc. presented in the poster and ask questions: *What's this? What colour is it? How many (balls) can you see? Is it a (doll)?*, etc.

Finding and pointing

Ask individual children to come to the poster, find and point to appropriate objects, e.g.: *Point to the (red car)*, etc. You may also divide pupils into two teams and change finding particular elements into an exciting competition. Ask one person from the team to come to the poster and find a particular object. If he/she does it correctly, the team scores a point. If he/she makes a mistake, another team takes a turn. Pupils may replace the teacher and give the commands.

Memory game

Set a specific time limit, e.g. 30 seconds. Tell pupils to look at the poster carefully and remember as much as they can. Then, cover the poster or take it off the wall and ask children one by one about the objects presented in the poster. You may also ask about the features of these objects, e.g.: *Is the (ball) (big)? What colour is the (kite)?* Pupils' task is to answer from memory. You may also conduct this exercise as a team competition, observing the time limit. The team who provided the biggest number of names of objects from the poster wins.

True or false?

Point to various objects in the poster and make true or false sentences related to them. For example, point to a lion and say *It's a zebra*. Pupils answer *No*.

Quiz

Tell pupils that you are thinking about a certain picture from the poster. The pupils' task is to guess which picture you mean. You may describe the object you have in mind for more advanced pupils, e.g.: *It's grey. It's small. It has got a tail. What is it?* Pupils: *(It's a bird.)*

Peeping through a keyhole

Cut out a hole (5–7 cm wide) resembling a keyhole in the middle of a large sheet of paper. Place the sheet on the poster and ask pupils what they can see. Move the sheet on the poster so that each time children guess the name of another object.

Singing

Use a chant related to the subject of the poster and introduced in the Pupil's Book. Ask one or more pupils to come to the poster. Play the chant; the task of children standing by the poster is to point to the objects mentioned in the recording.

Placing words on the poster

If pupils can recognise written words, you may ask them to place appropriate word cards below the pictures in the poster. One by one, pupils come to the poster and place a card with the corresponding word in the appropriate place. Then you may ask all pupils to read the words aloud together.

Make your own poster

Pupils can create their own posters, based on a similar topic.

Flashcard games

Which card is this?

Cut out a small square in the middle of an A4 sheet of white paper. Cover the flashcards with this sheet of paper in such a way that pupils can see only part of the picture in the cut-out hole. Ask pupils to guess what the cards present.

Observation

Show pupils a flashcard, but do it quickly. Then ask them: *What's this?* The pupils' task is to name the object presented in the card. If pupils fail to guess it the first time, show them the card again a little slower than before.

Guess and take it!

Hold up a flashcard. The pupil who is first to say the word presented in the card may take it. The pupil who collects the highest number of cards wins.

Echo

Make sure that pupils are familiar with the echo technique. Show pupils the flashcards and speak out relevant words. Ask pupils to repeat the words after you a few times quieter and quieter, like an echo.

Remember and say it!

Stick four or five cards to the board. Ask pupils to remember what they present. Then, remove the cards from the board and ask pupils to say the names. Repeat with other cards.

Remembering the order

Select four flashcards from the same topic and stick them to the board. Ask a few volunteers to look at the pictures and say the names of the objects presented. Then, ask pupils to remember the order in which the cards are placed on the board. Stick the cards face down on the board and ask pupils to say the words in the correct order.

What's missing?

Stick the flashcards on the board. Give pupils a few minutes to remember the order in which they are placed. Then, ask pupils to close their eyes and remove one of the cards. Ask them: *What's missing?* Pupils identify the missing card.

Snap!

Prepare flashcards from one vocabulary group. Say or write on the board one word from the group. Show pupils all cards from the group. When pupils see the card with the picture corresponding to the word, they call: *Snap!*

Which card have you got?

Select a few flashcards and give them to pupils. Ask them to pass the cards on in such a way that they cannot see what they show. At some point say *Stop*, and ask: *Who's got the (apple)?* The pupil who has the card you asked for says: *Me!*

Where is this card?

Stick the flashcards all over the classroom. Say the words and pupils point to appropriate cards.

Listen and pass it on!

Distribute the flashcards with selected words among pupils (e.g. one card per desk). Speak out sentences including the selected words and ask the pupils to pass appropriate cards to you.

Standing up

Hand over the cards from one set, e.g. with animals, to particular pupils. Say the names of the animals aloud. The task of the pupil holding the card presenting the animal you named is to stand up when he/she hears the name and to show the picture to the other pupils.

Raise your card

Distribute the cards among pupils. Tell pupils a short story in English. When a pupil hears the word depicted in his/her card, he/she raises it up.

Yes!/No!

Show pupils the flashcards and ask them to name the pictures together with you. Then, show pupils the cards in such a way that only they can see the pictures. Say a word in English. The pupils' task is to say aloud: *Yes!* if the picture shows the word you said. If the picture does not show the given word, pupils say *No!* Continue providing words until all the pictures are correctly named.

Numbers

Stick five flashcards on the board, e.g. with food. Ask one pupil to come to the board and to write numbers under appropriate pictures following your instructions, e.g.: *the (chicken) is number (one)*. Do the same with the four remaining cards. Then, ask particular pupils *What's number (three)?*

Charades

If it is possible, ask pupils to sit in a circle. Give one pupil the entire set of cards, e.g. from the unit *Food*. Play a recording. Pupils pass the set on when they hear the recording. Stop the audio. Then, the pupil who holds the set stands up, selects one card and mimes the word (e.g. if he/she had chosen a picture of a banana, he/she mimes peeling it and eating it). The task of the others is to guess the word. The card described is taken away and the game goes on.

Which is different?

Stick a set of five cards to the board: four from the same group and one from a different group. Ask pupils *Which is different?* The pupils' task is to find the odd card as quickly as possible.

Categories

Revise the vocabulary belonging to two topics, e.g. animals and food, using the flashcards. Show pupils the flashcards and check if they can provide correct names. Then, divide pupils into two groups and ask them to recall as many words belonging to one category as they remember. Award the team with one point for one correct answer.

Game with the bag

Put a few flashcards belonging to various categories in a nontransparent bag. Ask pupils to pick one card from the bag and name the item it presents. A pupil picks up cards and names pictures until he/she takes a picture he/she is not able to name. Count all the correctly named cards and award the pupil one point for each card. Put the cards in the bag again and repeat the game with another pupil. The winner is the pupil who scores the highest number of points.

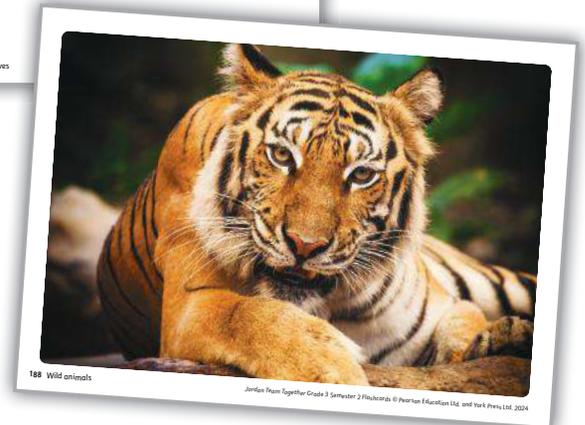

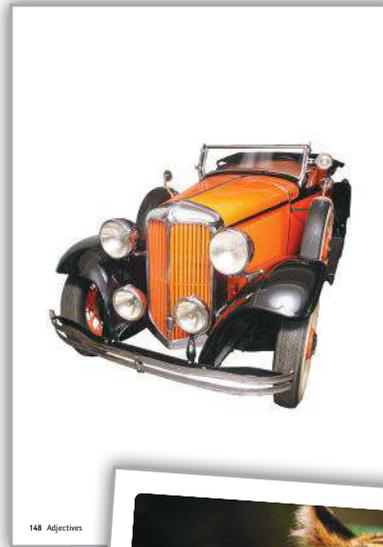

Countdown

Divide the class into small groups. Give each group several shuffled flashcards relating to different units (prepare copies of cards if you want each group to have the same set). Ask the groups to divide the cards into separate categories (e.g. colours, school objects, etc.). The winner is the group which completes the task first.

Easy or difficult?

Divide 20 flashcards into two groups: 'easy' (e.g. with vocabulary relating to the currently discussed unit) and 'difficult' (e.g. with vocabulary relating to previous units). Divide the class into two teams. Each team scores 5 points for each correctly given word from the 'difficult' group and 1 point for a word from the 'easy' group.

Flashcard and Word Card games

Match the cards

Stick word cards belonging to one group on the board in one column. Stick a shuffled set of corresponding flashcards in another column. Ask pupils to come to the board one by one and match the flashcards with the appropriate words.

Mime the word

Stick five or six word cards to the board in one row. Prepare the corresponding flashcards and ask certain pupils to come to the board and place the pictures under the appropriate word cards. When all cards are correctly matched, point to particular words and encourage pupils to read them together. Then, take off the flashcards. Ask one pupil to come to the board and point at the word to be mimed. Do the same with the other words.

Find a match

Prepare five flashcards and five corresponding word cards. Distribute them among pupils and then ask them to come to the front of the class. Explain to them that you will count to ten (or fifteen, if pupils know these numbers) aloud together with other pupils and during this time they have to find their match. When they find their partners, pupils stand up and raise their cards.

Bingo!

Ask pupils to prepare four or five word cards related to the topic you suggest. Raise the word cards, saying the name of the depicted object. The pupils' task is to mark in their sets the words which they saw in the pictures. The pupil who marks all the pictures calls *Bingo!* Then, ask the winner to read out the marked words. You may continue the game with the other pupils.

Sound cards

Prepare an audio recording. Distribute shuffled flashcards and corresponding word cards among pupils. Play the recording. The pupils' task is to pass cards on from one to another. When you stop the audio, the pupils holding word cards stand up and read the words aloud. The pupils with flashcards stand up upon hearing a word corresponding to their picture.

Draw the word

Place a set of word cards on the desk. Draw a box on the board. Ask a pupil to pick up the first card and draw the object mentioned in the card in the box on the board. Other pupils guess the word. When they guess the word, the pupil shows the word card to the class.

Games with a puppet/soft toy

Words and scenes

Using a soft toy, speak out a new word in English and ask pupils to perform a simple task, e.g. *Find something red. Stand up. Pick up a rubber. Point to Touch something etc.*

Questions

Using a soft toy, ask pupils simple questions, e.g. *What's your name? What colour is it? Have you got a pencil? Do you like cheese?*

Can I have ..., please?

Distribute flashcards to pupils. Ask them to name objects presented in the cards. Then, using a soft toy ask for particular cards: *Can I have the (bird), please?* The pupils' task is to give the appropriate card to the toy.

Pass the soft toy

If it is possible, ask pupils to sit in a circle. Play the recording of the song you want to revise and ask pupils to pass the soft toy to one another when they hear the audio. When you stop the recording, the task of the pupil holding the toy is to say a word or a line from the song. Start the recording again.

Games with songs and chants

Sing and respond

Provide a few pupils with one word they have to remember. (The words should come from the song or chant you want to revise.) Play the recording and ask pupils to stand up and sing and sit down when they hear their word.

Sing and stand in the correct order

Use the flashcards with objects appearing in the song you want to revise. Ask a few pupils to come to the board. Give them the cards. Explain to pupils that their task is to listen to the lyrics carefully and to stand in the order in which the words from their cards appear. The other pupils sing the song.

Performances

Select a few songs or chants for which you can prepare simple costumes or props. Teach pupils to show the content of the song or chant with gestures or mimics. Invite parents, teachers or pupils from other classes to a mini-performance.

TPR activities

What does the picture present?

Distribute small sheets of paper among pupils and ask them to draw on them one object from the covered material, e.g. food. Collect the papers and stick them to pupils' backs without revealing to them what the pictures present. The aim of the game is to stimulate pupils to ask questions, thanks to which they will be able to guess which picture they have on their backs, e.g. *Is it a (banana)?* Pupils may walk around the classroom or play in pairs.

Broken telephone

Divide pupils into two groups. Pupils stand in two rows. First pupils in each row should stay close to the teacher's desk. Put flashcards belonging to two categories, e.g. food and animals on the desk. Whisper one word from different categories (e.g. 1 – *bread*, 2 – *cat*) to the two last pupils in the rows. Say *Start!* Pupils whisper the word one to another to the first pupil in the row. The task of this pupil is to select the appropriate picture card from the pile lying on your desk and show it to you. A team scores one point for every correctly chosen card. Then the first pupil in a row goes to its end and the game goes on.

Alternative bingo

Ask each pupil to draw a picture presenting a word from a certain vocabulary group (e.g. animals). While pupils are drawing, write words belonging to this vocabulary group on small pieces of paper and put them in a box or bag. Ask pupils to stand up. Pick up one piece of paper at a time and read out the word. The pupils who drew the corresponding animal or object should sit down. Continue until you use all the pieces of paper.

How many of us are there?

Play a recording and ask pupils to move around the classroom in a particular way (jumping, walking). At some point stop the audio and say a number between 2 and 5 in English. Pupils have to form groups composed of the appropriate number of people. Pupils who have not joined any group have to wait one turn. Continue the game. If pupils feel confident, say numbers between 6 and 10.

Catch and say it!

Ask pupils to stand in a big circle. Say a category of vocabulary (e.g. food) aloud and throw a soft ball to a selected pupil. The pupil has to say a word from the category you chose. If the pupil doesn't catch the ball or say the appropriate word, he/she has to sit down. Continue the game until all pupils sit down.

Pass the ball

Ask pupils to sit in a circle. Choose a category of vocabulary. Give pupils a small soft ball and ask them to pass it from hand to hand. Every pupil who receives the ball has to say a word belonging to the chosen category – if he/she fails to do so, he/she drops out of the game.

The ball is burning

Pupils standing in a circle throw a ball or a soft toy to one another and name the colours. The ball or soft toy shouldn't be caught when somebody says *Black!* If despite that, somebody catches the ball, he/she kneels or squats down and continues playing. When he/she catches the ball properly in the next turn, he/she stands up.

Guessing game: pictures

Ask one pupil to slowly draw on the board a picture presenting a new word from the current lesson. Other pupils try to guess what the picture presents and say the appropriate word. The pupil who guesses the word first draws the next picture.

I name it and you point to it

Pupils sit in a circle. In the middle, place a few flashcards belonging to one vocabulary group. Ask pupils to keep their hands behind their backs. Say a word presented on one of the cards placed in the middle of the circle. The pupils' task is to touch it as quickly as possible. You can divide the class into teams and award points to the group whose representative touched the card first. Pupils may also play this game in pairs or in small groups.

Simon says

Give pupils simple instructions. Warn them, however, that they can follow the instructions only when these are preceded by the phrase *Simon says*, e.g. when you say *Simon says jump*, pupils can jump, but when you say only *Jump*, they cannot move (explain pupils that Simon is a king who gives them commands). The pupil who makes a mistake loses one point. Vary the speed of instructions – to make the game more interesting. Later you may ask pupils to give instructions. Instead of the name *Simon* you may use the word *teacher*, your name, or the name of a toy or puppet, if you use it.

Word Swat

Divide pupils into two teams. Ask them to stand in a line facing the board. Give the pupil at the front of each team a fly swatter. Place the words randomly on the board. Say or describe a word. The pupil with the fly swatter must run and swatter the correct word/s. The pupil who completes the task first wins a point.

Team games

Picture charades

Divide the class into two teams. Invite one representative of each team to the front of the classroom. Show each of them the same word card or whisper to them the same word. Pupils draw on the board pictures presenting the word. The team which is the first to guess the meaning of the picture and provides the correct word scores one point.

Funny race

Divide the class into two teams. Each of the teams stands in a row behind one chair, placing another chair a few metres away. One pupil of each team sits on the chair standing at the front of the row. Give each group different names of activities (*jump, clap, stamp, etc.*). Pupils have to move from the chair they sit on to the other one belonging to their team while performing the activity. The pupil who follows the instruction correctly and sits on the second chair first, scores one point for his/her team.

Board race

Divide the class into two teams. On the board draw a long racetrack divided into a number of stages corresponding to the number of questions prepared. Use pieces of colourful paper or magnets as pawns (one for each team). Ask pupils questions, e.g. show them flashcards, story cards or objects located in the classroom and ask *What's this? How many?* The pupil who provides the correct answer scores one point for his/her team and may move the pawn to the next field. The team which reaches the finishing line with the highest score is the winner.

Answer and draw points

Divide the class into two teams. Invite representatives of both teams to the board in turns. Quietly give them particular words and ask them to draw appropriate pictures on the board. If the picture depicts the word correctly, the pupil rolls the dice or spins the spinner and scores the indicated number of points for his/her team.

Parachute

Divide pupils into two teams. On the board draw a big falling parachute with a parachutist. Think of a word from the current unit and draw as many strokes or lines attached to the parachute, as many letters there are in the word. Pupils from both teams try to guess the word. For each incorrect answer erase one of the lines. Grant points to the teams when they provide a correct answer. When you erase all lines before the word is guessed, the team who answered last loses a point. In order to make the game more dramatic, draw a shark emerging from the sea below the parachutist.

Hanging the laundry

Cut out the shapes of some clothes from cardboard in various colours. On the board draw a line and stick the clothes there. You can also hang pieces of cardboard on a real washing line spread between two places in the classroom. Allow pupils to examine for a while the order in which the clothes are hung, then take them off the string. Ask pupils to draw clothes in their notebooks in the same order in which they saw them before. If there is no time to draw, ask pupils to give names of the clothes in the correct order. You may also divide the class into two teams and award points to the team which provides the correct answer first.

Repetition game

Divide the class into two teams. Invite one pupil from each team to the front of the class. Stick a few flashcards to the board and number them. Ask a pupil to provide the number of a picture on the board. Roll the dice or spin the spinner. The pupil has to repeat a given word the stated number of times. For correct performance of the task, the pupil scores for his/her team the number of points equal to the number on the die or spinner.

Team quiz

Show pupils a set of ten flashcards and ask them to name the objects presented. Raising each of the cards, ask *What is it?* The pupils' task is to name the picture: *It's (a boat)*. Stick the cards face down on the board. Behind the cards write numbers from 1 to 10. Divide pupils into two teams. Say the names of the objects on the back of the cards aloud.

The pupils' task is to guess which number represents a specific picture. Reveal the card to which the pupils have pointed: if the answer is correct, the team scores 2 points. If the answer is incorrect, it's the turn of the other group to guess. The game continues until all cards are revealed.

Noughts and crosses

Divide the class into two teams: 'noughts' and 'crosses'. Draw the grid for noughts and crosses on the board. Place one card in each field of the grid, face down to the board. Ask a pupil from the first team to reveal one card. If the pupil can say the correct word, he/she may take the card and place the sign of his/her team in that field. Then the pupil from the other team does the same. The winner is the team which manages to put 3 signs in a row.

Listen and touch!

Divide the class into two teams. Stick a certain number of flashcards to the board. Ask one pupil from each team to stand in front of the board. Say one of the words presented on the cards on the board. The pupil who touches the correct card first scores one point for his/her team. Repeat with other pupils and cards.

Guess the name

Divide the class into two teams. Ask one pupil from each team to come to the front of the class and stand with their back towards you. Hold up a flashcard, count to three and say *Turn around*. The pupil who turns around first and says the correct word scores one point for his/her team. Repeat with other pupils and cards.

Reading: use knowledge of punctuation marks to better understand a reading text; use pictures and other visual organisers to make predictions about the content; use phonic knowledge and word recognition to aid comprehension; use pictures and contextual clues to infer the meanings of new vocabulary items; independently read short texts of at least five sentences in the past or present tense; locate key facts or information in a reading text (e.g. names, places, events, etc.); identify the relationship between characters, if any, or the main idea in a text; understand the concept, as well as content, of simple dialogues; read and follow multi-step commands and requests in class, asking for clarification when needed; retell basic information in a reading text; deduce the meaning of certain vocabulary items relating them to context clues; spell one-syllable words that have blends, contractions or words ending in *-tion*, *-ing*; use stress and intonation patterns to clearly communicate ideas (stress content words; contract weak forms; express rising-falling intonation; stress the main verb in a sentence; stress the final word in a sentence); use syllabification and sentence segmentation to communicate with correct pauses; use the correct stress, intonation and pauses to effectively ask, answer, advise, direct and express likes and dislikes

Writing: write a short, simple memo to a friend; learn to accept peer review and objectively discuss criticism; revise a written test based on peer feedback

Viewing and presenting: start to demonstrate understanding of visual information by asking questions about genre; realise that texts and illustrations work together to convey information; begin to view different versions of the same story and realise the effectiveness of different viewpoints (picture book version vs. film/movie version of a story); listen to other responses, realising that people react differently; discuss his/her own feelings in response to visual messages; deliver a short oral presentation about an object or event of interest; use actions and body language to reinforce and add meaning to oral presentations

How to work with stories

Stage 1 – Before listening to the story

First, talk to pupils about the characters appearing in the story and about the places in which they appear. Ask pupils what they can see in the pictures and invite them to guess what will happen in the story. Remember to praise pupils for all their ideas, but do not correct them and do not explain too much. (In a moment pupils will listen to the recording and check if they were right). At the beginning of the school year, you may wish to ask questions in L1, little by little switching to English. Focus more on what occurred in the story than on the language itself. First, pupils will understand the story as a whole, then they will remember the vocabulary used in the story. Questions for this stage can be found at the back of each story card.

Stage 2 – Listening to the story

All the stories have been recorded by professional actors. However, if for any reason it is not possible to play the recording or if the teacher wants to tell the story himself/herself, the complete text of the recording is provided on the back of each story card. At this stage remember to encourage pupils to compare their previous ideas with what actually happened in the story. Play the recorded story and ask pupils to point to the appropriate pictures in the Pupil's Book.

Stage 3 – After listening to the story

After listening to the story together, ask pupils a few questions about it to make sure that they understood what happened. You may use the questions provided on the back of each story card or make up your own questions.

When answering, pupils additionally practise and consolidate the previously introduced language material. At this stage it is recommended to speak English.

Stage 4 – Acting out

After having listened to the story a few times, your pupils should be ready to act it out. Pupils can contribute to the story, first by making particular gestures and then, depending on the difficulty of the text, by using simple phrases. You may also play particular parts of the recording and ask pupils to repeat them each time.

Next, you may divide pupils into groups and ask each of them to say the lines of one character. Under the teacher's supervision and on the basis of the pictures, pupils quote the lines of appropriate characters. To make this exercise more interesting, you can bring items to be used as props.

For more ideas, see page 17.

CLIL Link

In Unit 5, the story is based around the concept of animals from the Natural Science curriculum.

Polly and her friends are helping at Tom's Uncle Bob's farm.

To explore this concept further, you can use Resource 70.

Reading: use knowledge of punctuation marks to better understand a reading text; use pictures and other visual organisers to make predictions about the content; use phonic knowledge and word recognition to aid comprehension; use pictures and contextual clues to infer the meanings of new vocabulary items; independently read short texts of at least five sentences in the past or present tense; locate key facts or information in a reading text (e.g. names, places, events, etc.); identify the relationship between characters, if any, or the main idea in a text; understand the concept, as well as content, of simple dialogues; read and follow multi-step commands and requests in class, asking for clarification when needed; retell basic information in a reading text; deduce the meaning of certain vocabulary items relating them to context clues; spell one-syllable words that have blends, contractions or words ending in *-tion*, *-ing*; use stress and intonation patterns to clearly communicate ideas (stress content words; contract weak forms; express rising-falling intonation; stress the main verb in a sentence; stress the final word in a sentence); use syllabification and sentence segmentation to communicate with correct pauses; use the correct stress, intonation and pauses to effectively ask, answer, advise, direct and express likes and dislikes.

Writing: write a letter to a friend using proper format; learn to accept peer review and objectively discuss criticism; revise a written test based on peer feedback

Viewing and presenting: start to demonstrate understanding of visual information by asking questions about genre; realise that texts and illustrations work together to convey information; begin to view different versions of the same story and realise the effectiveness of different viewpoints (picture book version vs. film/movie version of a story); listen to other responses, realising that people react differently; discuss his/her own feelings in response to visual messages; deliver a short oral presentation about an object or event of interest; use actions and body language to reinforce and add meaning to oral presentations

- Peer learning: pairwork; groupwork

Starting the lesson

- Give pupils three strips of paper each. Ask them to write a word from the new vocabulary on each one.

- Tell pupils that today's story is about a problem with a map.
- On the board, write *The map problem*. Ask pupils what they think will happen in the story.

Practice

Pupil's Book

1 Before you read Who's got the yoyo?

- Ask pupils to say as many toys as they can remember. Pupils look for the yoyo in the story.
- Have pupils look at all the pictures of the story and say what's happening in them.

2 6.5 Listen and read.

- Have pupils read or listen to the story. Ask them what happens in it.
- Play the audio again and pause at frame 5. In pairs, pupils discuss the question in the box.
- Using the True/False cards technique, say different statements about the story, e.g. *Polly loves walking. (True) Sami has got an old backpack. (No).*
- **Extension** Pupils write three questions about the story for their partners to answer.
- Refer pupils to the question box again. Ask if their guesses were correct.

Diversity

Support

- To help pupils read with fluency and understanding, write different sentences from the story on strips of paper and place them in a bag or a box. Pupils pick a strip and read it aloud. If they struggle, first you read the sentence and they read after you.

Challenge

- After listening to the story, have pupils read aloud to a partner. Then, one pupil says a sentence from the story and the other finds the sentence in the book.

Extra activity TPR

- Say sentences from the story for pupils to mime. Say *I love walking*. Pupils mime walking.

3 After you read Look at the story. Read and write.

- **Extension** Pupils write three sentences with *has got* and three with *hasn't got* about the characters in the story.

4 Act out the story.

- Divide pupils into small groups. Tell them to choose their roles and practise them.
- **Extension** Give each group a sheet of A4 paper to draw different objects from the story to use as props, e.g. map, yoyo. They can also use real props, e.g. sweater.
- Have the groups perform in front of the class.

5 Viewing and presenting Look at the map in the story. Design and share your path through a forest. Where do you start? Where do you end?

- Ask pupils how maps help us. Have pupils tell you what kind of things they would find on a map of a forest.
- Place pupils in small groups and have them complete the activity on a sheet of A4 paper.
- Use the Lollipop stick technique to ask groups to present their work to the class. Make a classroom display.

Values

- Ask pupils in what ways we can be resourceful. Have pupils think about why being resourceful is important.
- Ask pupils why it's important that we make sure that we don't leave any of our possessions or things when we are in nature.

Extra activity Communication

- Place pupils in groups and have them write a short story about themselves in a forest.
- Pupils perform their story to the class.

Finishing the lesson

- In pairs, pupils discuss their favourite scene from the story.

How to work with stories

Stage 1 – Before listening to the story

First, talk to pupils about the characters appearing in the story and about the places in which they appear. Ask pupils what they can see in the pictures and invite them to guess what will happen in the story. Remember to praise pupils for all their ideas, but do not correct them and do not explain too much. (In a moment pupils will listen to the recording and check if they were right). At the beginning of the school year, you may wish to ask questions in L1, little by little switching to English. Focus more on what occurred in the story than on the language itself. First, pupils will understand the story as a whole, then they will remember the vocabulary used in the story. Questions for this stage can be found at the back of each story card.

Stage 2 – Listening to the story

All the stories have been recorded by professional actors. However, if for any reason it is not possible to play the recording or if the teacher wants to tell the story himself/herself, the complete text of the recording is provided on the back of each story card. At this stage remember to encourage pupils to compare their previous ideas with what actually happened in the story. Play the recorded story and ask pupils to point to the appropriate pictures in the Pupil's Book.

Stage 3 – After listening to the story

After listening to the story together, ask pupils a few questions about it to make sure that they understood what happened. You may use the questions provided on the back of each story card or make up your own questions.

When answering, pupils additionally practise and consolidate the previously introduced language material. At this stage it is recommended to speak English.

Stage 4 – Acting out

After having listened to the story a few times, your pupils should be ready to act it out. Pupils can contribute to the story, first by making particular gestures and then, depending on the difficulty of the text, by using simple phrases. You may also play particular parts of the recording and ask pupils to repeat them each time.

Next, you may divide pupils into groups and ask each of them to say the lines of one character. Under the teacher's supervision and on the basis of the pictures, pupils quote the lines of appropriate characters. To make this exercise more interesting, you can bring items to be used as props.

For more ideas, see page 17.

CLIL Link

In Unit 6, the story is based around the concept of being safe from the Social Science curriculum.

Polly and her friends are outside in the forest looking for a cabin. Despite losing a map, they reach their destination safely as they had a compass with them.

To explore this concept further, you can use Resource 71.

- Monitoring pupils' learning: Lollipop stick technique
- Peer learning: pairwork; groupwork

Starting the lesson

-  Divide the class into small groups. Give each group a die.
- Tell pupils you will say a sound. Pupils then throw the die and they have to say as many words with that sound as the number on the die.
-  Use the Lollipop stick technique to have groups say the words aloud.

Practice

1 6.16 Listen and say.

- On the board, write *cl*, *sl* and *fl*. Have pupils repeat after you.
- Play the audio for pupils to listen and say.
- Write the phonic words on the board. Tell pupils you will spell a phonic word for them to say which one it is.
-  Have pupils say the phonic sounds and words in pairs.
- **Extension** Ask pupils to write sentences with the new phonics.

2 6.17 Listen and write *cl*, *fl* or *sl*.

- **Extension** Play the audio again, with pauses for pupils to write and say the words they hear.
- Have pupils take out their phonics notebooks and write the phonics they have learnt today in them.
- Say different phonics for pupils to say a word.

-  In pairs, pupils say the tongue twister as fast as they can to their partner.

Extra activity Creativity

- Ask pupils to take out their coat hangers and index cards. Supply if necessary. Tell pupils to write a phonic they have learnt so far on each index card, one on the front and one on the back.
- Staple a piece of string on each card and hang the card on the coat hanger.
- Place a hanger in the classroom and add a new phonic after every lesson. Pupils use it to say words with that phonic.

Starting the lesson

- Tell pupils to write as many of the furniture words as they can remember from the previous lesson in one minute in their notebooks.
- Show a flashcard and if they have the word on the list they call it out. If not, they write it down.

Presentation

- Tell pupils that today's story is about the children looking for something using different clues.
- On the board write *Fun at Tom's house*. Ask pupils what they think will happen in the story.

Practice

Pupil's Book

1 Before you read Where are the pyjamas?

- Ask pupils to look at the pictures and use the Lollipop stick technique to have pupils describe each frame.
- Then have pupils look for the pyjamas in the story.

2 7.5 Listen and read.

- Have pupils read or listen to the story. Use the Expert envoy technique to have pupils help one another with anything they didn't understand.
- Play the audio again and pause at frame 5. In pairs, pupils discuss the question in the box.

Extra activity Communication

- Place pupils in pairs and have them write three statements about the story, one of which must be false.
- Pupils say the statements to their partners who have to answer true or false, and correct the false statement.

3 After you read Look at the story. Read and write Yes or No.

Challenge

- Pupils write four Yes/No statements about the story using tables, chairs, beds, cat and bike. In pairs, they swap their sentences and answer.

Extra activity TPR

- Tell pupils you are going to play True/False sentences. Pupils quietly walk around the class while you say sentences about the story. If the sentence is false, they have to stop and clap. Say *The children are playing a game. The first clue is on the bed*. Pupils stop and clap at the second sentence. Pupils who don't stop, sit down and lose a turn.

4 Act out the story.

- Divide pupils into small groups. Tell them to choose their roles and practise them.
- **Extension** Give each group a sheet of A4 paper to draw different objects from the story to use as props, e.g. clues, telescope, teddy bear.
- Have the groups perform in front of the class.

5 Viewing and presenting Hide something in the classroom. Then write and share a clue for your friend.

- Place pupils in small groups. Ask them to think about an item they would like to hide. Use the Stop/Go technique to check understanding.
- Give each group three index cards to write clues on.
- Groups play against each other.

Values

- Ask pupils to think about why working together as a team is a positive thing to do. Ask them to talk about different ways they can work together to make things easy and people happier.

Finishing the lesson

- Ask a pupil to come to the front of the class. Tell them to choose a scene and mime it as best as they can. The first pupil to guess the scene comes to the front to continue the game.
- Use the Summative questions technique to ask pupils what they enjoy about the stories. Have the class vote on their favourite story so far.

How to work with stories

Stage 1 – Before listening to the story

First, talk to pupils about the characters appearing in the story and about the places in which they appear. Ask pupils what they can see in the pictures and invite them to guess what will happen in the story. Remember to praise pupils for all their ideas, but do not correct them and do not explain too much. (In a moment pupils will listen to the recording and check if they were right). At the beginning of the school year, you may wish to ask questions in L1, little by little switching to English. Focus more on what occurred in the story than on the language itself. First, pupils will understand the story as a whole, then they will remember the vocabulary used in the story. Questions for this stage can be found at the back of each story card.

Stage 2 – Listening to the story

All the stories have been recorded by professional actors. However, if for any reason it is not possible to play the recording or if the teacher wants to tell the story himself/herself, the complete text of the recording is provided on the back of each story card. At this stage remember to encourage pupils to compare their previous ideas with what actually happened in the story. Play the recorded story and ask pupils to point to the appropriate pictures in the Pupil's Book.

Stage 3 – After listening to the story

After listening to the story together, ask pupils a few questions about it to make sure that they understood what happened. You may use the questions provided on the back of each story card or make up your own questions.

When answering, pupils additionally practise and consolidate the previously introduced language material. At this stage it is recommended to speak English.

Stage 4 – Acting out

After having listened to the story a few times, your pupils should be ready to act it out. Pupils can contribute to the story, first by making particular gestures and then, depending on the difficulty of the text, by using simple phrases. You may also play particular parts of the recording and ask pupils to repeat them each time.

Next, you may divide pupils into groups and ask each of them to say the lines of one character. Under the teacher's supervision and on the basis of the pictures, pupils quote the lines of appropriate characters. To make this exercise more interesting, you can bring items to be used as props.

For more ideas, see page 17.

CLIL Link

In Unit 7, the story is based around the concept of our planet and what we can see in the sky from the Social Science curriculum.

Tom's parents hide clues for the children to find them and get a surprise. The children discover that the surprise is a telescope and take turns to look at the stars.

To explore this concept further, you can use Resource 72.

Objectives

- **Lesson aims:** to read simple cartoon stories
- **Target language:** wild animals; *Penguins can swim. They can't fly! They eat fish.*

Global Scale of English (GSE)

- **Reading:** Can follow simple dialogues in short illustrated stories, if they can listen while reading (GSE 26). Can recognise basic action words (e.g. *clap, stamp, jump, walk*) (GSE 21). Can understand the order in which events happen (e.g. in diary entries or a story) (GSE 41).
- **Speaking:** Can act out parts of a picture story using simple actions and words (GSE 30).
- **Writing:** Can write simple sentences about what they or other people can or can't do (GSE 28).

Materials

- Pupil's Book Pages 34–35
- sheets of A4 paper, enough for each pupil
- Unit 8 story cards
- unit flashcards
- animal mask (for animals mentioned in the story) cut-outs from the internet
- elastics for masks, enough for each pupil
- scissors
- Resources 65 and 73

Assessment for Learning

- Setting aims and criteria: lesson objectives presentation; Key question technique
- Monitoring pupils' learning: Stop/Go technique
- Peer learning: pairwork; groupwork

Starting the lesson

- Divide the class into two teams. On the left and right side of the board, draw a pizza with eight slices. Hold up a flashcard from Lesson 1, and ask a pupil to say the word. If the pupil cannot say the word, erase one of the slices of pizza from their team. The team with the most slices of pizza left wins the game.

Presentation

- Using the Key question technique, ask pupils why they think it's good to read stories in English.
- Tell pupils that today's story is about a play at the zoo. Ask pupils what they think will happen in the story.

Practice

Pupil's Book

1 Before you read Who's the elephant?

- Have pupils look at all the pictures of the story. Ask where each character in the story is.
- Ask pupils to find who the elephant is.
- **Extension** Ask pupils to think about which animal they would like to be in a play and why.

2 8.7 Listen and read.

- Have pupils read or listen to the story. Ask them what happens in it.
- Play the audio again and pause at frame 5. In pairs, pupils discuss the question in the box.
- Using the Stop/Go technique, say different statements about the story, e.g. *Polly is a penguin.* (Stop). *Bo is a crocodile.* (Go).
- **Extension** Use the story cards to ask about the story.
- Refer pupils to the question box again. Ask if their guesses were correct.

Diversity

Support

- Place pupils in pairs. They choose a frame each and read the sentences to their partner, slowly, pausing in places for their partner to complete it.

Challenge

- In pairs, pupils rewrite the story using different rooms and characters in each room. They read the story to the class.

3 After you read Look at the story. Read and write.

- Ask pupils what the animals in the story can do.
- Pupils do the activity individually and check with their partners.

Extra activity TPR

- Have pupils stand in a circle. Ask a question using *Can*. If the animals can do the action, then they mime the action and say *Yes, they can*. If not, they say *No, they can't* and stand still. Ask, *Can elephants run?* Elicit *Yes, they can* and pupils mime running. Then ask *Can elephants climb trees?* Elicit *No, they can't*. Pupils mustn't move. Pupils who move, lose a turn.

4 Act out the story.

- Divide pupils into small groups. Tell them to choose their roles and practise them.
- **Extension** Give pupils cut-outs of the animal masks to cut around and colour. Tell pupils these will be their props for the play.
- Have the groups perform in front of the class.

5 Viewing and presenting Design and share an animal mask.

- Ask pupils to think about their favourite animal.
- Give pupils a sheet of A4 paper and explain they have to make a mask with their favourite animal. Pupils colour their mask and then cut it out. They place an elastic from side to side so they can wear it. Pupils parade their masks in front of the class.

Extra activity Collaborative work

- In groups, pupils write a few sentences about what the animals on their masks can do and eat. They come to the front and parade with their masks, miming the actions they have written.
- Read out the sentences.

Values

- Ask pupils why it is important to eat healthy food and how it helps us grow.
- Have pupils discuss a healthy menu in groups.
- Ask pupils why it's important to respect animals in a zoo or in the wild. How can they show their respect? e.g. *Don't run or shout because it might scare them. Don't feed them.*

Finishing the lesson

- Explain to pupils that you will write sentences on the board but the words have their vowels missing, e.g. *l p h n t s c n w l k n d r n* (*Elephants can walk and run.* – Frame 3).
- In groups, pupils have to find the sentences from the story in two minutes and write them down. The group with the most correct sentences wins.

How to work with stories

Stage 1 – Before listening to the story

First, talk to pupils about the characters appearing in the story and about the places in which they appear. Ask pupils what they can see in the pictures and invite them to guess what will happen in the story. Remember to praise pupils for all their ideas, but do not correct them and do not explain too much. (In a moment pupils will listen to the recording and check if they were right). At the beginning of the school year, you may wish to ask questions in L1, little by little switching to English. Focus more on what occurred in the story than on the language itself. First, pupils will understand the story as a whole, then they will remember the vocabulary used in the story. Questions for this stage can be found at the back of each story card.

Stage 2 – Listening to the story

All the stories have been recorded by professional actors. However, if for any reason it is not possible to play the recording or if the teacher wants to tell the story himself/herself, the complete text of the recording is provided on the back of each story card. At this stage remember to encourage pupils to compare their previous ideas with what actually happened in the story. Play the recorded story and ask pupils to point to the appropriate pictures in the Pupil's Book.

Stage 3 – After listening to the story

After listening to the story together, ask pupils a few questions about it to make sure that they understood what happened. You may use the questions provided on the back of each story card or make up your own questions.

When answering, pupils additionally practise and consolidate the previously introduced language material. At this stage it is recommended to speak English.

Stage 4 – Acting out

After having listened to the story a few times, your pupils should be ready to act it out. Pupils can contribute to the story, first by making particular gestures and then, depending on the difficulty of the text, by using simple phrases. You may also play particular parts of the recording and ask pupils to repeat them each time.

Next, you may divide pupils into groups and ask each of them to say the lines of one character. Under the teacher's supervision and on the basis of the pictures, pupils quote the lines of appropriate characters. To make this exercise more interesting, you can bring items to be used as props.

For more ideas, see page 17.

CLIL Link

In Unit 8, the story is based around the concept of our body and eating healthy food from the Natural Science curriculum.

Polly and her friends perform a play about animals and what they eat at the local zoo.

To explore this concept further, you can use Resource 73.

Lesson 4 Activity Book

Practice

Pupil's Book

- 1 **8.8 Listen and say. Then listen and draw** 😊 or ☹️.
 - Say a food for pupils to point to in their Pupil's Books.

Extra activity Creativity

- Place pupils in pairs and give them a sheet of A4 paper. Have them make a poster of healthy food to present to the class.

Diversity

Support

- Give pupils three strips of paper each. Have them write a fruit on each one. Then tell them to cut the strip of paper in the word at a syllable, e.g. *co - co - nut*.
- Place pupils in small groups. Have them place all their strips in the middle and mix them up. Slowly, they match the strips and say the word. Pupils may refer to their Pupil's Books.

Challenge

- Place pupils in pairs. One says a word for the other to spell without looking in their books.

2 **8.9 & 8.10 Listen and sing.**

- Ask pupils to read the song and underline all new vocabulary.
- Play the song for pupils to sing. Explain that when they hear a word related to food, they stamp their feet.
- A karaoke version of the song is available (track 8.10).

Extra activity TPR

- Divide the class into four groups. Give each group a food from the song. Play the audio again. Pupils read the song and sing their food aloud when they hear it. Repeat by having groups change food.

3 **What's in your café? Tick (✓) or cross (X). Then ask and answer.**

- **8.11** Draw pupils' attention to the Grammar box and the recorded model.
- Place three flashcards on the board. Explain that we use *Is there* or *Are there* to ask if something is here. We use short answers to reply.
- Ask pupils to look at the board. Ask about a fruit that is on the board using *Is there ...?* Elicit the correct answer. Repeat with a fruit that isn't on the board. Repeat a few times.
- Use the Traffic light cards technique to check understanding.

-  Peer learning: pairwork
-  Independent learning: Summative questions technique

Starting the lesson

- Have the class form a circle. Throw the ball to a pupil and say an animal. The pupil has to say a verb that animal can do, and then throw the ball to another pupil who in turn, has to say another verb that animal can do. If a pupil cannot say a verb, they sit down.

Presentation

-  Explain that in this lesson pupils will learn about a place where wild animals are rescued.
- Ask pupils if they've ever seen a wild animal.

Culture notes

- There's a rich diversity of wildlife in Jordan, especially in the desert region. Jordan's national bird, the Sinai rosefinch, lives in dry, treeless mountains and the desert. Its colour is believed to be similar to the red sandstone of Petra.
- Some animals are brought to Jordan to live in private homes or zoos. They include bears, lions and tigers, whose natural habitat isn't the desert. Sometimes, they can't be looked after properly so animal rescue centres take them in and provide conditions that suit their natural needs. The most well-known wild animal rescue centre in Jordan is Al Ma'wa for Nature and Wildlife. If the animals can't be sent back to their country of origin or released into the wild, the animals are given a permanent home at the centre.

Practice

Pupil's Book

1 Before you read Are there animal rescue centres where you live?

- Ask pupils if they know of any rescue centres and if so what animals they have.
- **Extension** Encourage pupils to imagine they were going to open an animal rescue centre. Ask what type of animals they would save and why.

2 8.14 Listen and read.

- Ask pupils to describe the pictures in the text.
- After listening to the audio, ask pupils what

they found interesting about it. Ask if they would like to volunteer in a rescue centre. Ask what they would do there.

- **Extension** To help with pronunciation and expression, play the audio again, for pupils to repeat.

Diversity

Support

- Ask pupils to look at the text and copy in their notebooks the words they know from each paragraph. Play the audio and have pupils tick their words as they hear them. Then have pupils look back at the text and read the sentences with the words they have on their list. Ask if they understand the text better.

Challenge

-  In pairs, one pupil reads a sentence and the other one points to the matching picture.

3 After you read Activity book, page 35.

- Pupils turn to page 35 in their Activity Books.

Extra activity Critical thinking

- Ask pupils why it's important to take care of all the wild animals on the planet. Have them think about what would happen if all animals disappeared. Ask how they think rescue centres can help.

Assessment for Learning

-  Setting aims and criteria: lesson objectives presentation
-  Monitoring pupils' learning: Stop/Go technique
-  Peer learning: pairwork

Starting the lesson

- Give pupils a sheet of A4 paper each. Have pupils write ten words they have learnt in this unit.
- Say all the new words from this unit in random order. Each time pupils hear a word on their list, they cross it off. The first person to cross off all their words calls out *Bingo!*

Presentation

-  Explain that in this lesson pupils will learn how to talk about their feelings.

Extra activity Communication

- Have a class discussion on why it is important to express your feelings, even if they aren't good ones. Ask pupils why we should listen to people when they are expressing themselves and how we can help them.

Practice

- **Speaking:** Can give brief reasons for their opinions on familiar topics (GSE 37).

Materials

- Pupil's Book Page 42
- all units flashcards from Semesters 1 and 2
- sheets of A4 paper, enough for each pupil
- fly swatters
- True/False response cards
- pictures of different types of maps (old and new)

-  Monitoring pupils' learning: Lollipopstick technique; True/False cards technique
-  Peer learning: groupwork
-  Independent learning: Summative questions technique; portfolios

Starting the lesson

- Have a class vote on which unit pupils have enjoyed the most.
- Take out the flashcards from that unit and place them on the board.
- Have pupils form a line in front of the board. Draw a pizza with eight slices on it. Explain that you will say a word for them to swat. If they swat the incorrect word, they lose a piece of pizza.

- Show pupils different maps and ask them what they find interesting about them.
- Then show pupils Google maps if possible or Google Earth.
- Tell pupils that in the past people used paper maps to get around and that a GPS is a new invention.

Culture notes

- In 700 BCE, thousands of years ago, a clay tablet was found which had a drawing of a place called Babylon on it. Historians consider this to be the first map. As people began travelling all over the world, discovering new places, maps became important and so they started making maps. But many of these maps were incorrect.

Pupil's Book

1 Think Why do we need maps?

- Ask pupils if they use maps and what for.
- Show pupils the different maps again. Ask pupils why a person would use each map.

Extra activity Communication

-  In groups, pupils discuss who they think would need to have a map as part of their work (*pilots, bus/taxi drivers, sailors*). Pupils discuss what would happen if these people didn't have access to a map.

- Play the audio for pupils to read and listen to.
- **Extension**  Use the True/False cards technique to quiz pupils about the text. Say *Maps are paintings. (False). Maps have names of places on them. (True).*

Culture notes

- Satellites are special machines in space that send back to Earth information about space and our Earth. They have very good cameras and can photograph Earth well.
- A GPS actually sends a signal to a satellite in space so it can work. Satellites not only work with maps but they help scientists with weather reports and to study the Earth. We can also watch many of our favourite TV programmes because of satellites.

Diversity

- Write the following words on the board: *rivers, mountains, north, south, east, west, images, woods, paths.*
- Ask pupils if they know these words. Use L1 to translate them if necessary.
- Pupils read the text and find the sentences with these words. Pupils read the sentences to their partners.

Challenge

- Pupils write their own sentences using: *rivers, woods.*

Extra activity TPR

- Draw a compass on the board with all its points. Go through each point. Show pupils a map and show them where *north, south, east* and *west* are.
-  Divide the classroom into the four points. On a sheet of A4 paper write the point and put it in the area.
- Tell pupils you are going to play *Simon says*. Say *Simon says go north* etc., and pupils have to run to it. If a pupil runs to the wrong place, they sit down.

2  Listen, read and check.

What are maps?

Maps are drawings of places. We can see our country and our town on maps. There are rivers and mountains on maps, too.

Maps have got the names of places on them. They've also got a compass on them. The compass shows north, south, east and west.

Satellite images are different. They show photographs of places, not drawings. The images come from satellites in space. They show farms and woods. They've also got parks and paths on them. Satellite images are exciting!

- **Extension**  In small groups, pupils write a few sentences of what they have learnt today and illustrate their work.
- Help pupils with any queries.
- Pupils present their work to the class. Make a classroom display.

Extra activity Fast finishers

-  Have pupils choose a paragraph from the text. On a sheet of paper they copy it and illustrate what it says. Pupils present their work to the class. Place their work in their portfolios.

Finishing the lesson

- Give each pupil a sheet of A4 paper. Tell pupils to pretend they are a satellite in space that is taking photos of the Earth. Tell them to draw a few things they see to send back to Earth and to write a few sentences about them.

No, no, it's in the south.* Continue until all groups have had a go.

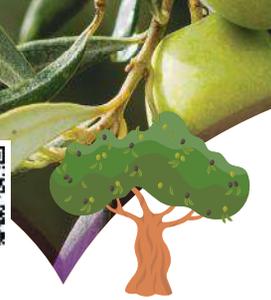

Extra activity Critical thinking

- Ask pupils if they think paper maps will disappear because of new technologies. Ask them what type of maps their families use more often.

Finishing the lesson

- Have pupils take out their Learning diary from their portfolios.
- Explain that in it, they have to write what they have learnt so far in this semester.
